RESILIENT SAGE

Protect Your Purpose

FRACTIONAL SECURITY DIRECTOR

Senior security leadership, *without the full-time hire.*

For organizations that need security leadership but can't staff it full time, and for teams too stretched to move projects forward.

CHALLENGES WE SOLVE

01

Not enough time

You have plans but no time to execute them. Scale the FSD up or down, so your team gets time back for the bigger picture.

02

Not enough people

Keeping up with the status quo consumes your team. The FSD carries the extra load, so you move capability forward.

03

Not sure where to start

You know there are issues, but the path isn't clear. The FSD brings leadership-level expertise and does the hands-on work.

COMMON USES

- Policy, procedure, and program development
- Capacity building
- Vendor selection and management
- Security leadership, oversight, or strategic planning
- Added bandwidth for day-to-day operations
- Short-term projects

Start the conversation

On retainer, scaled to your needs. Travel and expenses included.
